

BLANCO SNEAKS OUT OF HAVANA

SPANIARD DOES NOT WANT TO ENCOUNTER AMERICANS.

Leaves the City By Stealth—Seeking Lessons From the Salvador Revolt—Finishing Touches on the Peace Treaty—American Naval Station—For the Philippines.

Washington, Dec. 1.—[Special]—The clandestine departure of Blanco from Havana is a surprise here. It was thought that he would remain at his post until the American troops occupied the city. The fact of the matter is that his life has not been safe of late, and he was no doubt glad to get away with a whole skin. He is detested by the Cubans, whom he has persecuted almost as cruelly as did Weyler, and hated by the Spaniards. Ever since the surrender at Santiago his life has been in perpetual danger. A pistol or a knife would have ended his earthly career when ever the opportunity to use them occurred. For months he has led a life of seclusion, appearing in public only when necessity compelled, and always surrounded with a strong military guard. He was known to be anxious to quit Havana before the arrival of Gen. Fitzhugh Lee, whom he treated so shabbily while he was consul general. To be compelled to receive and recognize Lee as his superior in authority upon ground where he had of late been supreme would have been exceedingly galling to him, but his cowardly departure will place him in a far worse light before the world than if he had remained to face the music, even though the band at the head of the procession played "Yankee Doodle."

NAVAL STATION NEEDED.

One Will Have to Be Established in or Near the Philippines.

Washington, Dec. 1.—[Special]—The needs of our navy at the Philippines will compel the establishment of a naval station in that vicinity at an early day, and congress, at the approaching session, will probably be asked to make the appropriation necessary for the purpose. It is said at the navy department that the large fleet now being maintained in the Philippines will not be reduced for a year, and it will probably be necessary to permanently maintain a fleet equal to the one there now. The European station includes only two vessels, the San Francisco and the Bancroft, the former now being attached to the North American squadron. The squadron which is now patrolling the waters of the Atlantic coast and those of Cuba is rather large; but when all the auxiliary vessels are taken from it, it is really no larger than it was during the period of peace. In order that the fleet now commanded by Admiral Dewey shall be ready for any emergencies that may arise, it will be necessary that it have a convenient base of supplies, and congress will be asked to provide it.

LOOKING FOR LESSONS

Salvador Revolt May Furnish a Key to Government of Acquired Territory

Washington, Dec. 1.—[Special]—The rebellion in Salvador has been watched with unusual interest by officials here. It is acknowledged freely that in acquiring Porto Rico, the Philippines, and other islands from Spain and assuming a protectorate over Cuba the United States has undertaken a herculean task. People of Spanish blood, or those in which that strain predominates, are much given to revolts against the regularly constituted authorities, and trouble is expected in our new territory. It is not the intention to subject the inhabitants of the island provinces to harsh treatment. The effort is to be made to show them that they are self-governing while not anarchistic. This will be a difficult task at best, and it may require years to accustom the people to the new order of things. In the meantime if any lessons are to be drawn from the Salvador disturbances they will be closely watched and duly heeded.

CAPITAL FOR CUBA.

Large Shipments of American Gold for the Stimulation of Industry.

New York, Dec. 1.—[Special]—The shipment of a million dollars in gold to Cuba from local banks yesterday indicates that the movement looking towards the development of the island has already begun. The money is in coin of small denominations, and designed to pay the wages of workmen who may be engaged in the industries. Advices from Cuba state that the people there, Spaniards as well as Cubans, are anxious to get down to work now that the long period of disorder is at an end. Manufacturers, especially of cigars, will be stimulated by liberal outlays, and investors are looking for large returns. There is an abundance of capital here looking for investment in Cuba, and as soon as its safety is assured it will flow into the island in a large and continuous stream.

DETAILS REQUIRE ATTENTION.

Two Weeks Will Be Required to Complete the Treaty of Peace.

Washington, Dec. 1.—[Special]—Advices from Paris state that it will require about two weeks to complete all the details of the peace treaty between the United States and Spain. There are many minor matters yet to be considered that were not covered in the general

scope of the protocol. They are non-essentials but never the less require careful consideration by the commissioners and painstaking labor by the clerical force. Nothing is at all likely to arise concerning them, however, that will tend to unsettle affairs. They are clerical details simply, requiring no diplomacy.

STARVING BY THOUSANDS.

Terrible Condition of Affairs Reported from Cuban Provinces

Havana, Dec. 1.—[Special]—People are dying by hundreds of starvation in Havana province. The Spanish authorities prevent the awful truth from becoming known. The local press is not allowed to describe the horrors of the situation. The starving people are in despair, and fear the news of their condition will not reach Washington, from which place alone help can come. Advices from Santo Domingo, Santa Clara province, say the town has been sacked by Spanish soldiers. All houses in the place were plundered, women abused, and with their children left naked on the streets.

THE TREATY OF PEACE

Spanish Commissioners Make Suggestions as to Its Terms

Paris, Dec. 1.—[Special]—The Spanish peace commissioners this morning sent to the American commissioners certain communications bearing on the matter of drafting the articles of the peace treaty. Owing to the necessity of the Americans having to consider the meeting of the joint commission adjourned until tomorrow.

FROM SPANISH SOURCES.

Philippines May Not Accept American Rule But Resist It

Madrid, Dec. 1.—[Special]—It is asserted that dispatches have been received from Manila saying that the Philippines are determined not to recognize American rule, and will fight against it to the bitter end.

IN STRAITS FOR MONEY.

Reports That Havana Banks Will Be Plundered to Pay Troops.

Havana, Dec. 1.—[Special]—There was a panic on the stock exchange yesterday, on a rumor that General Castellanos, Blanco's successor, intended forcibly to demand the money in Spanish banks to pay the troops.

INSURGENTS BEATEN.

Philippines Suffer a Severe Defeat From the Spaniards.

Madrid, Dec. 1.—[Special]—A dispatch from Manila says a heavy defeat has been suffered by the insurgents at the hands of the Spaniards.

RIOTS ARE FEARED.

Unpaid and Discontented Soldiers May Cause Trouble at Havana.

Havana, Dec. 1.—[Special]—There is a revival of talk that riots may be again precipitated by the discontented and unpaid soldiers.

may Revive the Force Bill.

Washington, Dec. 1.—It is reported that Senator Pritchard of North Carolina will ask for the appointment of a special committee to investigate the riots in his state and recommend such legislation as may tend to prevent a recurrence. President McKinley, while a member of the house, voted for the force bill, which gives ground for the belief that he would favor the enactment of a measure drafted on similar lines. Some discussion is going on among the president's friends as to whether he will in his message to congress refer to the recent election riots in North and South Carolina, and perhaps make some recommendation in the matter.

Regulators for Garrisons.

Washington, Dec. 1.—If congress early in the session should make provision for the increase of the regular army it is quite probable that none of the volunteer regiments now in the service will be sent to do garrison duty in Cuba. The troops first to be sent to Cuba will be composed largely of regular regiments, so far as they are available. Plans are maturing for the muster out of as many volunteers now in service as is possible. The demand of the enlisted men to go home and leave the service is growing greater and greater every day.

Save Cubans Are Starving.

New York, Dec. 1.—Gen. Jose Gomez has called on Stephen E. Barton at the Red Cross headquarters in this city to ask his aid in sending relief to the sick and starving women and children at Las Villas, Sancti Spiritus and Trinidad in Santa Clara province. The general said the suffering was more intense there than in any other part of the island and if relief did not soon reach the people it would be too late.

Ohio Miners to Meet at Massillon.

Massillon, Ohio, Dec. 1.—President William Morgan of the district miners' organization has issued a call for a convention in Massillon, Dec. 12, of the miners of four counties. This call, coming after the meeting of the national officers of the union of this city, is causing local operators no little alarm, inasmuch as the air is filled with rumors of another strike.

Blanco Leaves Cuba.

Havana, Dec. 1.—The Spanish mail steamer Villaverde, with Marshal Blanco, the former captain general of Cuba, and his suite on board, left this port at 1 o'clock Wednesday.

SUPT. HEG TALKS OF REFORMATORY

TOOK GRIFFIN BACK WITH HIM THIS NOON.

Says That the Institution Over Which He Presides is a Model One—Teaches the Prisoners a Trade—Janesville Prisoner is the First to go From Rock County.

James E. Heg, superintendent of the state reformatory at Green Bay, was in the city today for the purpose of escorting "Dab" Griffin to that institution, where for the next twelve months he will serve time.

In speaking of the new reformatory Superintendent Heg could not say enough in its praise; and to say that it is today considered one of the most complete institutions of its kind in this country, is not praising it a bit too strong. The building is constructed mainly of stone and iron, and is not lacking for modern appliances.

Years of hard work on the part of the state board of control, and thousands of miles of traveling has been required to erect this institution, and all that is perfect in the construction of similar buildings in the United States has been embodied in the one over which Superintendent Heg now presides at Green Bay. Work on the building, which has been under way for several weeks past, is yet uncompleted, and will require several weeks before it will be in full running order. Accommodations for 104 prisoners will soon be ready with the completion of the cell houses, while now a total of thirty, mostly transferred from the state's prison at Waupun, complete the present enrollment.

Superintendent Heg says that the great trouble is that the prisoners are sent there for short terms. If they were sent up for five-year terms they could be let out on parole after they had been there a short time, and in such case if they failed to behave themselves they could be brought back and made to serve out their sentences.

While in the reformatory prisoners will be taught a trade, and now the thirty prisoners are busy with the carpenter and mason trade, and are assisting in the erection of the building.

Griffin on leaving the city today stated that he intended to learn a trade while there and come out a much wiser man.

BARROWS DECIDES TO ACCEPT

The Doctor Will Be President of Oberlin College.

Dr. Barrows, who lectured this week at the Congregational church, and who was recently elected president of Oberlin College, stated at Mason City, Iowa, last evening, that he would accept the call. He will meet a committee at Sioux City on Friday, where arrangements will be completed.

More Cattle Mortgages.

Abilene, Kan., Dec. 1.—An important addition has been made to the amount of Gillett paper outstanding by the compilation of mortgages in Chase county, there being found there \$489,300 in mortgages, given largely by W. F. Dunlap, who was Gillett's agent in that county, and some by C. R. Troxel. About 5,000 head of cattle have been found there.

Nothing more has been heard here from Gillett. It is now known that he had an attorney with him at Fort Worth the day before he disappeared, showing that he was arranging his affairs for flight.

Platt Now Favors Choate.

Washington, Dec. 1.—It is pretty generally admitted in Washington that Joseph H. Choate, the distinguished New York lawyer, will be our next ambassador to the court of St. James. Senator Platt has withdrawn all opposition to Mr. Choate's appointment, and it is believed that, though New York has her quota of diplomatic appointments, the advantage of securing Mr. Choate's services at London are sufficient to outweigh all geographical considerations.

Will Amend Laws of Divorce.

Indianapolis, Ind., Dec. 1.—The next legislature will amend the divorce laws of Indiana. For this purpose a marriage and divorce census has been taken by the state statistician. During the year ending June 30 there were 25,043 marriages and 2,896 divorces, of which 793 were given to men and 2,103 to women.

Free Masons to Send Envoy.

Madrid, Dec. 1.—A dispatch to the Liberal from Barcelona says that the grand lodge of Free Masons of Catalonia will send a special emissary to the Philippines by the next mail steamship, charged with the conveyance of a petition to Aguinaldo praying him to release the Spanish prisoners now in his power.

May Muster the Second Out.

Savannah, Ga., Dec. 1.—The soldiers of the Second Illinois are greatly pleased at the prospect of being soon mustered out. Indeed, there is little thought that any of the Seventh army corps will ever go to Cuba. Many dissatisfied men rejoice at the thought of an early release.

REPORTS WILL BE OF GREAT INTEREST

ANNUAL STATEMENTS OF CABINET OFFICERS AWAITED.

Naval Chief Will Recommend Additions to the Fighting Craft—Secretary of War Will Advocate Increase in the Army—Neither Proposition Will Be Seriously Opposed.

Washington, Dec. 1.—[Special]—The president is engaged with his message to congress and his cabinet officers, and all the bureau chiefs, are busy preparing their annual reports. Greatest interest centers in the reports of the secretaries of the army and navy and the treasury department. The two former will doubtless contain a resume of the operations against Spain, and will prove valuable documents to the historian of the period, as they will contain details of the movements of ships and troops by means of which Spain was conquered in an incredibly short period.

The secretary of the navy will recommend a further addition to our fighting force on the sea of several armed cruisers and first class battleships. There will be little opposition in congress to granting the request. As stated in these dispatches the other day there is practically no opposition to an increase of the army to a hundred thousand men. The needs of the country require this increase, and members of both parties will unite in authorizing it. Whatever opposition the measure may meet will not arise from partisan prejudice.

The secretary of the treasury will not recommend any change in our currency. He, as well as other members of the president's official family, is of the opinion that it is good enough as it is, and any effort to tamper with it would cause uneasiness and public distrust. If he mentions the proposition at all it will be merely to recommend that it be left alone.

NORTH FORMERLY LIVED HERE

Came Near His Death at Belvidere, Ill., This Week.

Ray North, who was turnkey at the Rock county jail under Sheriff Appleby, and who made Janesville his home for some time, came near meeting death this week at his home in Belvidere, Ill. The Belvidere Northwestern says:

"Ray North and his wife and two children and Mrs. Hines narrowly escaped death by suffocation yesterday morning at his home on Prairie street, and they were perhaps saved only by the timely awakening of Mrs. North."

"Mrs. Hines, who resides near the Logan school, had been called in the evening before to keep the children company while Mr. and Mrs. North attended the soldiers' reception, and had remained over night. Upon their return from the opera house Mr. North filled the base burner, and it is thought left the top of the stove partly open."

"At 6 o'clock Dr. Burton was called, and found Mrs. Hines and every member of the North family, except the youngest child, in a serious condition."

More Troops to Philippines.

Washington, Dec. 1.—The administration has decided to send as few volunteers as possible to Cuba in the near future, the hope being that congress will very speedily act on the president's recommendation for a large increase of the regular army. If favorable legislation is passed very soon it will be possible to muster out some of the volunteer regiments originally designed for garrison duty in Cuba, and it will also be possible to order home a number of volunteer organizations from Manila. Preparations have already been made for sending additional regiments of regular troops to the Philippines, but whether or not the volunteer regiments will be withdrawn upon the arrival of the regulars is uncertain.

Two Killed in a Wreck.

Red Bud, Ill., Dec. 1.—A Mobile and Ohio engine was wrecked at a point thirty miles south of here Wednesday. The engine was uncoupled from the rest of the train and was backing down Rattlesnake hill, when it jumped the track and rolled down the steep embankment. Fireman Regie was killed instantly and Engineer Goodin so badly scalded that he died last night. Conductor Ashby and Brakeman Hunt were also in the cab and both were seriously injured. Hunt is not expected to live.

Accused of Matricide.

Washtucum, Wis., Dec. 1.—Sheriff Sonju left here for Sparta with two boys named Solberg, who were arrested last week charged with killing their mother. The family lives in this county on a farm near Marengo, and while the boys are only about 8 and 10 years of age, the evidence points strongly to their guilt. The boys are alleged to have shot their mother with a gun, death resulting instantly.

Fresh Trouble in Africa.

Brussels, Dec. 1.—The Soir says trouble has arisen in Africa between Germany and the Congo Free State relative to the respective boundaries of German territory and Congo territory north of Lake Tanganika. It is added by the Soir that a strong force of Germans has been sent to the Manyema country, while the Congo forces at Lake Kivu have been considerably reinforced.

MONROE INSANE—MAN HERE

Was on His Way to the State Asylum For the Insane

"Cap" Hoesley, of Monroe, was in the city for a brief stay, being on his way to the state hospital for the insane at Madison. He was examined by Drs. Clark and Steiger, who pronounced him insane and recommended that he be sent to the Mendota asylum for treatment. Hoesley has been acting strange for some time past, at times becoming violent, and it is thought by his friends that a course of treatment will restore him to his former health.

Gold Fields Are Frozen In.

Victoria, B. C., Dec. 1.—It will probably be the beginning of January before any further news is received from the men who have chosen to spend the winter on the rich goldbearing creeks of the Klondike. So say those who arrived here on the Cottage City, the last of three steamers to leave Skaguay. The other steamers were the Danube and the Queen City, which reported very rough trips. The Danube reported that the Excelsior, which left Seattle a few days ago for Copper river, is on her way back, her boilers having collapsed. The Yukon below White Horse rapids is frozen over. About 500 men will winter on the creeks in the Atlin river country.

Vacancies in the Cabinet.

Washington, Dec. 1.—It is rumored that there will be at least two changes in the cabinet soon after the peace treaty is an accomplished fact. Secretary John D. Long of the navy and Secretary Cornelius N. Bliss of the interior are said to have expressed a desire to retire from official life as soon as they can do so without causing embarrassment to the president. They are said to be thoroughly in accord with the president's policy and have been throughout the war, and the negotiations leading up to peace, but each has large private interests, and neither is apparently ambitious for higher political honors.

THE MOTH AND THE FLAME

One of the Greatest Dramatic Successes of Recent Years Monday Night

It may not be amiss in view of the presentation of Clyde Fitch's new play, "The Moth, and the Flame," at the Myers Grand next Monday night, and the recent great success of his other recent new play, "Nathan Hale," to devote a brief space to the somewhat remarkable work accomplished by this brilliant young American dramatist within a comparatively few years. His last two plays, "Nathan Hale" and "The Moth and the Flame," have brought Mr. Fitch prominently forward in the list of native dramatists. In both of them his keen observation of social life, his wit, constructive skill and fine literary qualities are best exhibited. Mr. Fitch is only thirty-two years old. He was born in Hartford and is a descendant of a fine old Connecticut family. Though his opportunities for social enjoyment were many, he settled down to the serious hard work of life before he was out of his teens. He attracted the attention of a leading editorial writer of one of the great New York papers who obtained for him a position as society editor of the paper; but in the meantime the young writer had secured a place with a large business house to write popular verses, and as it gave him more time to devote to writing plays, he declined the

opportunity for a journalistic career. Mr. Fitch's first play was "Betty's Finish" which had a run of two months at the Boston Theatre, but it was "Beau Brummell," written for Richard Mansfield, which brought him first into prominence. He was but twenty-two years of age when he first wrote the play, though it was not produced until 1890.

The first trial of the play at rehearsal was not satisfactory to the distinguished actor, and he put it away in the bottom of his trunk, where it nestled until thought of for a year or more. It was only brought to light again when Mr. Mansfield began his spring engagement in New York city, and was in urgent need of a new production. It was the only material at his command, and he decided to make the risk. The result was the first big money making success in the actor's career. Mr. Fitch's next play, "Frederic Le Maitre," was written originally for Felix Morris, but is now included in the repertoire of Henry Miller. "A Modern Match" which followed was written for Augustus Pitou's traveling

stock company. "Pamela's Prodigy" was written for Mrs. John Wood in London and was a failure. "His Grace De Gruumont" written for Ouis Skinner served that fine young actor for three years. He adapted the "Masked Ball" from the French for John Drew's first starring tour. "A Social Swim" for Marie Wainright and "April Weather" for Sol Smith Russell came shortly after. Mr. Fitch next wrote "Harvest" a one act play for the Theatre of Arts and Letters. This is a little play which he has elaborated into the "Moth and the Flame." He next collaborated with Leo Dietrichstein on "Gossip" for Mrs. Langtry. He fitted up "The Lion" from the French for Charles Frohman, but it proved a flat failure. "Bohemia" from Murger's "Vic De Boheme" was written shortly after. "Miss Betty" for Madame Modjeska, and a "Superfuous Husband" for Ned and Joseph Holland, and "The Marriage Game" for the late Carrie Turner, were his next efforts. "Nathan Hale" for Nat Goodwin, and "The Moth and the Flame" for Herbert Kelcey and Miss Effie Shannon, complete the list.

CHURCH SOCIALS AND SALES

Presbyterian Ladies Held Their Annual Sale Yesterday Afternoon

The newly completed basement of the Presbyterian church was a busy place yesterday afternoon, the occasion being the annual sale of useful articles. Fancy articles and a candy booth brought the church a neat sum.

Among the novelties offered for sale were little books containing brief extracts from Rev. Pence's sermons. The books were compiled by Misses E. May Clark and Grace Kirk.

A very tempting lunch was served during the noon hours and an elaborate supper was served from 5 until 7 o'clock. The affair was a success in every way.

PROMISES TO ENTERTAIN

Saturday's Southern Drama Will Be Well Worthy of Patronage.

"The Carpetbagger" as he will be seen at the opera house on Saturday evening, is a creation so near to life that he will be instantly recognized by every one who was acquainted with the type in post bellum days. He was not an altogether admirable creature, although

he served a wise and useful purpose. In the hands of Opie Reed, the author, he does not appear repulsive or unprincipled—merely an adventurer with his moral senses somewhat dulled. Tim Murphy acts the part admirably, and is supported by a company of unusual merit. There is no doubt whatever that the performance will be one of the finest seen at the opera house this season, and it deserves a liberal patronage.

Dr. James Mills gave an interesting account of a visit he recently made to Paris. He was followed by A. A. Jackson and H. H. Blanchard, who spoke briefly of the glorious history of Scotland.

Rev. E. H. Pence responded to an urgent call, and made a few pleasant remarks, which caused much merriment. An original poem, "Great Britain's Message to America," was recited by Andrew Scott, the poet laureate of the society.

In the way of music the social was not lacking. Miss Linda Taylor sang with much expression, "He Was a Prince," and received the well merited plaudits of the audience. Miss Carrie Baldwin played a selection on the piano with exquisite effect. Miss Edith Hayward proved very acceptable as the accompanist to the vocal selections.

At the conclusion of the program, which was informal throughout, those present who felt so inclined, indulged in card games for an hour or so, and the company dispersed shortly before midnight.

COMPLETE SEASON'S PLAYING

The High School Eleven Have Won Their Share of Glory.

Manager Kearney, says that the Janesville High School football eleven is practically through with games for this season. They retire with a record that they may well feel proud of, and today they are regarded as one of the strongest high school teams in the west. The success of the local team has been due, to a great extent, to physical training and the rigid discipline regarding smoking, use of liquor and restrictions of diet, several men being laid off for violations of such rules. The team was organized with nearly all green men and some excellent material has been developed, but the team work as a whole, with quick snappy playing, has won the remarkable victories secured by the team. Several good trick plays were also used with great success.

MURPHY VISITS THE SALOONS

Beloit Keepers Speak Well of Him And His Good Work.

Francis Murphy, the great temperance advocate, who is soon to lecture here, has made a good impression with the saloon keepers of Beloit. The Beloit News says:

"The acquaintance of all the saloon keepers was made and Mr. Murphy invited them all to his meetings and told them if they had any customers who were in the habit of taking too much send them around also. One saloon keeper whom he visited said that Mr. Murphy was a fine gentleman and that he enjoyed his visit and hoped to see him again."

"The same man said he considered that Mr. Murphy was doing a good work and that he knew how to do it. Kindness goes much farther than abuse and every saloon keeper in Beloit feels that they have a friend in Francis Murphy."

ST. ANDREW WAS DULY HONORED

JANESVILLE SCOTS OBSERVED THE ANNIVERSARY.

A Large Gathering of Caledonians and Their Friends Was Held Last Evening—Speech and Song Beguiled the Hours, and a Pleasant Season Was Enjoyed By. 11 Present.

The Caledonian society observed St. Andrew's day by a social gathering of members and their families at the rooms last evening. The attendance was quite large, and a few invited guests graced the occasion with their presence.

When President Colin C. MacLean called the meeting to order he mentioned the fact that Scots all over the world were assembling to talk about the land of their birth, and bringing back reminiscences of the happy days of their youth that had been spent under the old roof-tree. In Milwaukee and Chicago banquets were being held at which many distinguished men were present. He read the bill of fare prepared for the Milwaukee Scots, and created much amusement by his comment on the several dishes.

He then called upon Alex. Galbraith for a brief history of St. Andrew. That gentleman read a comprehensive review of the life and services of the apostle, and while admitting that much of his material was drawn from tradition, he made a scholarly address, taking occasion to exalt the Scottish character meantime.

President MacLean said he had provided a graphophone for the entertainment of those present, and it was put in operation, rendering a number of musical selections in an admirable manner.

Dr. James Mills gave an interesting account of a visit he recently made to Paris. He was followed by A. A. Jackson and H. H. Blanchard, who spoke briefly of the glorious history of Scotland.

Rev. E. H. Pence responded to an urgent call, and made a few pleasant remarks, which caused much merriment. An original poem, "Great Britain's Message to America," was recited by Andrew Scott, the poet laureate of the society.

COAL OPERATORS UNLASY.

Result of Miners' Conference Awaited with Interest.

EIGHT HOURS IS THE ISSUE.

Miner Owners Are Dissatisfied with the Present Agreement—Col. Read Gives His Opinion on the Subjects in Dispute.

Chicago, Dec. 1.—Coal-mine operators and miners are looking forward with the most intense interest to the joint conference at Pittsburgh which will commence on the first Monday of January, and the result of which may precipitate or avert the greatest coal strike this country has yet seen.

The unsettled condition in all coal regions, the phenomenal business now being done by the operators, and the dissatisfaction admitted to be felt by the operators with the agreement of a year ago, providing for an eight-hour day and an increased scale of wages, are all factors which are important issues in settling the questions to come before the conference.

On the one hand are the operators, who, it is said, will positively refuse to extend to the miners as favorable terms as were made a year ago, and on the other are the miners, flushed with the success of the Virden settlement, who, it is safe to say, will decline to accept terms less favorable, and, from all indications, are prepared to demand greater concessions than ever before.

Col. Read yesterday tried to take an optimistic view of the outlook. "It is too early yet to say anything upon the subject of the conference, as it is too far ahead," said he. "However, from the present indications, there will be an amicable adjustment of all the matters at issue, and the difficulties will probably not be greater than have been successfully met in previous conventions. However, one thing has been shown by the eight-hour scale, and that is that men cannot do as much work in eight hours as in ten hours. Whether or not the agreement of a year ago will be continued I cannot say."

It is said that the Pittsburgh operators' organization has gone to pieces, but no confirmation of this report could be obtained. The greatest dissatisfaction prevails among the Pittsburgh operators, however, with the existing agreement, which provides an eight-hour day for that district, but does not include the West Virginia district, where the miners are working outside the union scale.

Tin Plate Plants to Close.

Pittsburg, Dec. 1.—It is stated that all the tin plate plants in the United States that have allied themselves with the new syndicate will be shut down Monday next. Just how long they will remain idle is not known definitely, but the prediction is made by persons interested in the new combine that the suspension will cover a period of four weeks. Operations will probably be renewed Jan. 2. Thousands of men will be thrown out of employment.

Philippines Must Wait.

Washington, Dec. 1.—Senators and members of congress who have arrived express themselves satisfied to leave the Philippine question alone until the treaty of peace is ratified, and not take it up until the regular session of the fifty-sixth congress.

There is little prospect of an extra session of congress, and few advocates of one among the members. There will probably be a special session of the senate to consider the treaty.

Colorado's Gold Output.

Denver, Col., Dec. 1.—Figures to date indicate a gold production for Colorado this year of \$28,000,000.

Colorado Springs, Col., Dec. 1.—Cripple Creek's November gold output was 36,450 tons, worth \$1,477,500. The smelters treated 11,000 tons of an average value of \$72. Mill ore ranged from \$20 to \$30 a ton. A slight increase over October is shown.

Sagasta Fears the Carlists.

London, Dec. 1.—The Biarritz correspondent of the Daily Mail says: "Senior Sagasta now admits that Carlistism is the greatest existing danger to Spain. The authorities are seriously alarmed at the indications of an imminent rising. The Carlist plans have been elaborately devised, even to the extent of appointing a governor of Madrid."

Hobson to Be Transferred.

Washington, Dec. 1.—It has been practically settled that Naval Constructor Richmond P. Hobson will leave the construction corps for the line of the navy, in which he will be given the rank of lieutenant commander for his services in taking the collier Merrimac into Santiago harbor and sinking her in the channel, to prevent Cervera's fleet from escaping.

Mad Fakir Is Advancing.

Simla, Dec. 1.—The Mad Fakir, or Mad Mullah, continues to advance, and his following has increased. It is reported that he has defeated the forces of the khan of Dir.

London, Dec. 1.—The papers here comment on the success of the Mad Mullah as threatening grave trouble to the British in India.

To Exclude American Meats.

Paris, Dec. 1.—Prof. Stiles, the scientific attaché of the United States embassy in Berlin, is here for the purpose of consulting with Senator Davis, in the latter's capacity as chairman of the senate committee on foreign relations, in regard to the pending bill in the German reichstag against the importation of American meats.

REFORMS FOR CITIES.

Municipal League Meeting Begins at Indianapolis.

Indianapolis, Ind., Dec. 1.—At the opening session of the sixth national conference of the National Municipal League Wednesday an abundance of material for consideration was laid before the men who are devoting themselves to the solution of the municipal problems. The next three days will be occupied in an effort to evolve something that may be of real value to the municipalities of the United States.

The annual report of the secretary, Clinton Woodruff Rogers of Philadelphia, on "The Advance of Municipal Reform in the United States" was the first paper laid before the conference. The secretary maintained that the outlook for municipal reform was hopeful, notwithstanding the prevailing conditions in Chicago, New York and Philadelphia. A beginning, and a good beginning, he maintained had been made, but it yet remained to drive the forces of corruption, iniquity and chicanery from their strongholds, and to make the average citizen realize the full measure of his civic duties.

The conference was told that there had been no abatement in the interest in civil-service reform, and it was related that the people living in the cities were concerned about their franchises and were taking steps to protect their interests.

Dr. L. S. Rowe, professor of municipal government in the University of Pennsylvania, presented the report of the committee on municipal programme. The committee submitted a proposed municipal corporation act, under the provisions of which, they said, it would be possible for cities, large or small, to adopt a form of organization suited to their need.

Late to bed and early to rise, prepares a man for his home in the skies. But early to bed and a Little Early Riser, the pill that makes life longer, and better and wiser.

German in Bitter Mood.

Berlin, Dec. 1.—Intense surprise and bitterness has been caused here by the speech of the Austrian premier, Count von Thun-Hohenstein, in the reichstrath Tuesday, when in reply to an interpellation on the subject of the expulsion of Austrians from Prussia he said the Austrian foreign office had strongly protested and would not hesitate energetically to protect the rights of Austrians and to adopt retaliatory measures if necessary.

Papers like the Vossische Zeitung, which opposed the expulsion policy from the beginning, are nevertheless quick to resent in a patriotic outburst Count von Thun's "unseemly and ill-advised menace." Judging from their comments, the matter has a grave import.

Constipation prevents the body from ridding itself of waste matter. DeWitt's Little Early Risers will remove the trouble and cure sick headache, biliousness, inactive liver and clear the complexion. Small, sugar coated, don't grip or cause nausea.

Wheat in New South Wales.

Sydney, N. S. W., Dec. 1.—According to the official forecast, the wheat harvest for 1898 will be 1,590,000 bushels in excess of that of 1897, and there will be a surplus available for export of 2,250,000 bushels.

Style In Jackets

is one of their most important features. No matter how fine the material, how perfect the fit, how excellent the tailoring, if the garment lacks style—lacking this it lacks everything. Our garments have all the good points mentioned above and plenty of style. They come from a maker who is noted for sending out the most fetching creations, and his line for this season is par excellence.

Six sample lines of Coats and Capes have lately been added to the already excellent showing, and on anything in the garment line we know that we stand alone. Controlling so many sample lines enables us to save you one-third—worth looking after I guess.

Millinery

is cheaper here now than earlier in the season, and it was cheaper here then than in other stores. Consequently we are offering millinery values which should challenge the attention of all late buyers. A recent visit to the market secured many mid season novelties as well as some very special values in all lines.

DELIGHTFUL SOCIAL EVENT

Miss Shumway Entertains in Honor of Her Visiting Guest

In honor of Miss Mary Yerger, of Columbia, Pa., a most delightful social function was given last evening by Miss Mabel Shumway at the spacious Court street home of her parents, Mr. and Mrs. A. E. Shumway. One hundred guests responded to invitations, but few regrets being sent. The guests were received by Mrs. A. E. Shumway, Miss Yerger and the Misses Shumway. The playing of six handed progressive euchre occupied the greater portion of the evening, the honors falling to Miss Racine Bostwick and Arthur J. Harris. Tempting refreshments were faultlessly served at small tables, and at midnight the guests departed. The event proved one of the most delightful social companies of the season.

SCOTCH WANT A
CURLING CLUBJANESVILLE, WITH MANY AD-
VANTAGES, HAS NONE.

Natives of the Auld Countree Would Like Such An Organization Here—There is Plenty of Material, and Good Ice May be Had Three Months in the Year.

There is some talk among the Scotch people of the city of organizing a curling club. There are many lovers of the game in Janesville, but thus far no steps have been taken to form an organization.

No game is more conducive to perfect physical development than curling. In nearly every city in the north there are from one to half a dozen clubs. It takes the chief winter sport at Milwaukee, Portage, Waupaca, La Crosse and several other towns, and its devotees are among the most prominent business men. In Janesville, where so many of the people are Scotch or descendants of the Scotch, it is surprising that no such organization has been effected. There are ample opportunities for indulging the sport here. There is usually plenty of good ice for a period of three or four months, and no town in the state has better opportunities for encouraging it. The play develops the muscles and trains the eye to accuracy in measurements as no other game does.

No evil associations cling about it. Saloons do not cater to the trade of curlers, for they are not usually of the class that patronize saloons.

It is an inexpensive game. Once the stones are purchased it costs practically nothing. The dinners that usually follow matches are modest and inexpensive. "Beef and greens" forms the piece de resistance at all such banquets, and the repast is usually washed down with a mug of ale. No one ever thinks of drinking champagne or strong drink at a curler's dinner. It would not be the thing to do, first, because it isn't the style, and secondly because it unfits the drinker for successfully coping with his antagonists on the rink.

Leading citizens all over the north-west delight in curling. Although it is a distinctive Scottish game, Americans all over the country indulge in it to a great extent.

The contests at curling interest a large number of communities, and matches are played each year for trophies donated by lovers of the game. Canada competes with the United States and the east with the west. No gambling is indulged in for curling is emphatically a clean, gentlemanly sport, not associated with hazard of any sort.

There has been some talk in Janesville this year about forming a curling club. All that is needed to bring such an organization about is for some man of influence to take hold of the matter and bring it to the attention of the lovers of outdoor sports. A club should be formed in a day, the curling "stones" procured without the delay of a week, and practice begun before Christmas day. Who will move in the matter?

A JURYMAN WAS ARRESTED

Alvin Alder, on the Selleck Case. Was Fined for Hunting.

Alvin Alder, who has been sitting on the Selleck case in the circuit court, this week, as a member of the jury, has been spending his spare moments in planning how he will get even with Game Warden Johnson.

According to late reports from the shores of Lake Koshkonong it seems that Juryman Alder was recently placed under arrest there charged with sculling. He said but little aside from the fact that he was paid \$10 fine and costs. Juryman Alder is a lover of wild game, but he says that it is too expensive when one is hounded by a game warden.

TWO CALVES GET
FARMERS INTO COURTCIRCUIT JURY HANDLING A
QUEER CASE.

John E. Hoff and James F. Barker Would Like to Know Who is Out Two Yearling Heifers—Case Will Cost Both Plaintiff and Defendant Large Sums.

After a year of litigation over the ownership of two yearling heifers, John E. Hoff and James F. Barker, prominent Rock County farmers, unable to settle the trouble among themselves, have allowed their case to get into the circuit court of Rock county, where it is now on trial before a jury.

The two calves in question were not valued at over \$20 each, but present indications are that before the case is settled it will cost the interested parties many times their value.

At 10:30 o'clock this morning the case was called before the following jury: Cyrus Miner, Joel Proctor, O. D. Bruce, H. S. Stevens, Charles Kennermer, J. M. Mansur, Thomas Brannigan, G. Tullman, G. C. Ferris, O. L. De Forest, Calvin Johnson and Edward Inman.

The first witness to take the stand was the plaintiff. He was unable to understand English, and for the accommodation of the court in Cleophas, of Beloit, acted as interpreter.

Mr. Hoff stated that in April, 1897, he made arrangements with Mr. Barker, of the town of Avon, to allow him to pasture two of his yearling calves on his farm, at two dollars each for the season. The deal was closed, and Mr. Hoff took over his calves and put them in the pasture with several other cattle at his own risk. In November he went to get them, and selected two that he said were his. Mr. Barker then appeared in the scene and said that he had selected, mistaken in the two he had selected, saying that they were not his.

A search of the farm was made, but Hoff's cattle were not there, and it is supposed that they got away, according to Mr. Barker's story.

Hoff still insisted that the two heifers he selected were his, and he then replevined them through Mechem's court in the town of Avon.

The cattle are still in Hoff's possession, but Mr. Barker says that they never belonged to the plaintiff, and that he will fight the case to the bitter end. Burr Sprague, of Broadhead, represents the plaintiff, while William G. Wheeler, of Danville & Wheeler, is looking after Mr. Barker's interests.

SLEIGHING PROMISES WELL

Good Prospects For An Abundance of Snow For the Winter

Another snowstorm set in this forenoon, with every prospect of continuing for some hours. The roads are in excellent condition to receive the coating, being smooth and hard, and the sleighing from this time forward promises to be excellent. The last flurry had the effect of bringing out the sleighs in goodly numbers, and many farmers have come to town on runners. Wheeling is bad, and sleighs will be preferred from this time forward if it is possible to use them.

Most of the farmers as well as the city folk are prepared for a season of sleighing. Last year's snows were abundant, and nearly every one who owns a horse is provided with a sleigh of some sort. In the city indications point to gay times with sleighing parties to the surrounding towns and resorts.

DISLOCATED ANKLE
BOTHERED THE JURYSELLECK CASE WAS ENDED
THIS MORNING.

At 10:30 o'clock the Jury Filed Into the Ante Room and Remained Warmly Arguing the Case—The Condition of Mrs. Selleck's Ankle Occupied Much of Their Time.

Attorney M. G. Jeffris for the plaintiff, made the final argument this morning, and at 10:30 o'clock, the twelve jurors filed into the jury room to discuss the case of Alfred P. Selleck vs. City of Janesville. Under Sheriff Wallace Cochran in charge, and no sooner had he locked the jury room door than the arguments began to wax warm.

Hour after hour passed, and still no knock came at the door, and when the noon hour arrived and it was time to partake of dinner, they were still at it.

The one question that bothered the jury more than any other was the present condition of Mrs. Selleck's ankle—whether or not it will hinder her in the future from performing duties from day to day. On this question the jury delayed at length, some holding that the dislocated ankle would render her an invalid for the remaining days of her life, while others were of the opinion that although the ankle was liable to remain in its present state it would not necessarily class her as an invalid so that she would be helpless.

When the 12:30 o'clock hour arrived the jury were taken to the Hotel Myers, where they partook of dinner.

At 3:45 o'clock this afternoon the jury notified the court that they had agreed on a verdict. They then filed into the court room and Foreman Sayre then handed their decision to Judge Bennett, who read it aloud:

"We, the jury, find for the plaintiff in the entitled action of Alfred P. Selleck vs. City of Janesville, fixing such damages in the sum of \$1,950."

A Long-Felt Want Supplied.

A Weather-Strip that is durable, effective and cheap. The improved Common Sense Weather Strip combines all of these qualities. It is made wholly of wood, and when applied it becomes a part of your building, permanent and lasting as your doors and windows.

By using this Weather Strip you make your buildings warm and comfortable also making a great saving of fuel, soon saving its cost. Nearly all the cold air that gets into our homes is forced in through the doors and windows, the cold air on the outside being many times heavier than the warmer air on the inside, it is forced in through every little crack and crevice much as water would be if the house was submerged, thus it is going on continually, and we must have expensive fuel to offset the effect. Testimonials by the thousand could be shown, attesting to its merits, but we believe that a test under your own observation will prove more convincing to you than a book full of testimonials of persons that are unknown to you.

Give it a trial, if only a door or window, to convince you of its merits, so that your verdict may be recorded with that of others who have tested it. Orders can be left at Sherer's drug store or with

TO BE SIGNED IN TWO WEEKS.

Treaty with Spain Will Soon Be Concluded.

WORK PROGRESSING WELL.

Agreement Has Been Reached on Cuba, Porto Rico and the Philippine Articles—Madrid Government Sends Final Instructions.

Paris, Dec. 1.—The joint peace commission met at 2 o'clock Wednesday afternoon and sat until 4:20. The first eight articles of the treaty were discussed. These included the restitution of the archives of the surrendered territories, the liberation of prisoners, the mutual surrender of all claims arising prior to and after the signing of the protocol, including the American claim for the loss of the Maine, and the evacuation of the Philippines by the Spanish troops.

Both sides now believe that no further serious difficulty will arise, and that the treaty will be signed within a fortnight.

As the article conveying \$20,000,000 to Spain has been definitely agreed upon it appears to exclude the likelihood of a further sum being paid for the betterments in the Philippines, as has been hinted in some quarters would be done.

The Spaniards maintained a dignified silence on the financial subject, though hopes had been raised that a further sum would be paid for the betterments.

The questions dealing with religion in the Carolines and cable stations in those islands were not reached. These will probably be drafted finally at today's resumed conference.

From an official American source it is learned that only slight alterations were suggested in the draft of the articles submitted by the secretaries. The unimportance of these alterations may be gathered from the fact that the Spaniards described the said articles as definitely settled prior to the rising of the joint commission.

Vital Points Are Settled.

Washington, Dec. 1.—Secretary Hay believes that the peace commission has passed all the difficult points in negotiating a treaty of peace and that the work yet to be done in Paris is largely technical in drawing up the articles of the treaty.

The agreement to the protocol settles the vital points, though there may come up a delicate point in negotiating navigation and tariff advantages for Spain in the Philippines, as indicated in the dispatches from Madrid.

It is reported that the Spanish cabinet has given instructions to the Spanish commissioners to negotiate for such advantages. If they are granted it is conceded that the article will have to be carefully drawn to guard against other nations claiming the same advantage under the favored-nation clause of their treaties with the United States.

The open-door policy, if ever contemplated, seems to have been abandoned, for none of the cabinet officers longer considers it possible to write such a policy into a treaty of peace which concerns only Spain and the United States.

Instructions Sent to Paris.

Madrid, Dec. 1.—The cabinet council sat until a late hour Tuesday evening. The ministers agreed upon the form of instructions to be forwarded to the Paris peace commission relating to secondary matters connected with the treaty of peace.

It is understood that the cabinet's instructions to the Paris commission are to request the immediate release of the Spanish prisoners in the Philippine islands, to negotiate navigation and tariff advantages in the Philippine islands in favor of Spain, to obtain a ratification of several treaties of commerce with former Spanish possessions and an arrangement of the debt of the Philippines, and, if possible, of the Cuban debt. The government also agreed to refuse a ratification of the protocol of 1875.

To Report on the Virden Riot.

Carlinville, Ill., Dec. 1.—The investigation of the Virden riot by the Macoupin county grand jury is virtually completed and the formal report will be made in court today to Judge Thompson of Jacksonville. That true bills will be returned against all the participants in the riot of whom the investigating body obtained knowledge is now practically assured. It is believed that indictments have been drawn up against the head officials of the Chicago-Virden Coal company. It is more than probable that the assailants of Jacob F. Eyester, the Climax Trading company's manager, will also be held for trial.

Aguinaldo Asks \$1,500,000.

Madrid, Dec. 1.—It is stated that the government has received an important cable dispatch from the Philippines announcing that Aguinaldo, the insurgent leader, demands \$1,500,000 for the release of the monks held prisoners by the Filipinos.

WINE OF CARDUI

A LITTLE DOES MUCH.

BOONE, IOWA, Dec. 14.
No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no pain since.
MRS. GRACE LAMPHERE.

Wine of Cardui

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles".

Pana, Ill., Dec. 1.—After fifty days' continuous night and day riot duty in Pana, troop B, of Bloomington, First Illinois cavalry squadron, was relieved Wednesday by company K, Fifth regiment, of Delavan.

The provost guard has charge of the city, but desultory shooting occurs nightly.

Another consignment of negroes arrived last night. The colored men were met at the train by a squad of soldiers, who relieved them of their weapons before permitting them to march to the Springside barracks. The Lady Repented...

A lady shopping for Dress Goods found a piece in our stock that just suited her. She asked the price and was told 47c per yard. She said "Oh, pshaw, why don't you say 50c?" The difference is insignificant." We made some laughing reply and then asked her how much she wanted. She said she would take ten yards. The goods were cut off and taken to the cashier's desk to be billed. We made out two bills: One ten yards at 47c—\$4.70, and one ten yards at 50c—\$5.00. We handed her the package and presented her with both bills, telling her to take her choice. She chose to pay the one at \$4.70. We said "Oh, pshaw, give us the \$5.00; the difference is insignificant." Then there was a general laugh all around and the lady acknowledged that the little savings did count up after all.
